

## GEL Documentation System donated to Cancer Patients Aid Association (CPAA)

Mr PD Samudra inaugurates the GEL Documentation System

As part of its commitment to the Healthcare Sector of India under its Corporate Social Responsibility (CSR) policy and goals, thyssenkrupp Industrial Solutions (India) (tkIS India) donated a GEL Documentation System to the Cancer Patients Aid Association (CPAA) on 14<sup>th</sup> November 2018 at the Smt. Panadevi Dalmia Cancer Management Centre Anand Niketan, Mahalakshmi, Mumbai. The GEL Documentation System is used in Cervical Cancer detection and helps in the recording of diagnostic data by providing high quality resolution images of the smear sample. The system donated by thyssenkrupp Industrial Solutions (India), will ensure a sample handling rate of approx. 1,000 samples per month from the current 500 per month, using the CPAA's existing system.

'We are extremely grateful to thyssenkrupp for this donation. This is a high end machine and will go a long way in helping us with our analyses,' said Mr YK Sapru, Chairman & CEO of the CPAA. Also present were Dr. Dhananjaya Saranath, Executive Director, Research & Additional Projects, Mrs. Rekha Sapru, Mrs. Siloo Jasdanwalla & Mrs. Gulshan Hodiwalla both of CPAA's Finance, Legal & Commercial Team.

Earlier the Documentation System was inaugurated by **Mr PD Samudra, CEO & MD** in the presence of **Mr NR Chitre, CFO & ED, Mr. K. Suryakumar, CSR Consultant, Ms. Trisha Jaiswal, CSR Module Lead & Mr. Sushil Sorte, Business Development**. Also present was Mrs S Samudra, President of The Rotary Club of Mumbai Mahim, which helped coordinate the donation.

The Cancer Patients Aid Association (CPAA) is an NGO set up in 1969 with the aim of providing "Total Management of Cancer" as would help socio-economically underprivileged

cancer patients. Cervical Cancer screening, detection, and early treatment including rehabilitation & prevention are one of their initiatives. The Trust is professionally run and has its centre at Mahalaxmi.
