

Mr N Rangarao was at Chlor-Alkali Industry Roundtable...

Mr N Rangarao, General Manager -Process was a key speaker at the Industry Roundtable on the Chlor-Alkali organized by Pall Corporation, a key supplier of filtration, separation and purification solutions for the Chlor-Alkali industry, at Vadodara in the last week of May 2019.

The '**Key Opinion Leadership Program**' which was organized to facilitate an industry interface with a view to helping solve operational challenges, addressed a number of areas, including best practices in major filtration/separation applications in Chlor Alkali plants, with deep dives into areas such as Brine Polishing, final Chlorine & Hydrogen treatment and other Liquid Filtration applications.

The well-attended meet served as an excellent platform for industry leaders and experts to meet interact, after the presentations and Question-Answer Sessions.
